

The **mySOS** emergency app is being used by FNB Wines2Whales as their recommended emergency app for all 3 events this year :

**Chardonnay**

**Pinotage**

**Shiraz**

**mySOS** was developed to enable you to easily contact the event organizers and event emergency services if you experience an events related emergency.

When an emergency is activated, a call will be made to the race organizers/medics. They will also receive your details and the GPS location to enable help to arrive far quicker. Your emergency contacts will also receive notifications via sms & email of the incident.

**mySOS** is a **FREE** smartphone app that is available on both iOS and Android. After downloading the app please remember to charge your cell phone on race day.

If you open the **mySOS** app on your phone on Race Day the screen on your phone will show :

If there is an emergency on race day follow the instructions below :

**mySOS** is not only meant for events, but is an all inclusive emergency app, 24/7. For further information about the **mySOS** app visit [www.mysos.co.za](http://www.mysos.co.za)
